

Seeking Innovative

Suicide Care Research Proposals

The Suicide Care Research Center (SCRC) invites you to submit a Letter of Intent (LOI) by September 15, 2024 for a 2-year R03-level award of \$100,000 to fund pilot or developmental research in Suicide Care.

Innovative projects must develop, refine, and/or implement scalable interventions or service delivery along SCRC's Suicide Care Pathway, specifically for adolescents and young adults in outpatient medical settings.

Projects Requirements*

- Led by Multiple Principal Investigators from different disciplines
- One MPI must have evidence of suicide research expertise
- Use SCRC's methodology and common data elements
- Builds partnerships between clinical or community partners and academic researchers

Eligibility

Anyone along the career spectrum can be on a research team; graduate students, postdoctoral trainees, early career investigators to established researchers.
